

# Magnetic Cup Holder Mount

Our universal grip cup holder mount slides seamlessly into most cup holders. The weighted base is stable enough to hold even plus-sized devices. Included square or circular magnets adhere to the back of your phone. Place your phone against the magnetic mount, and the ferromagnetic base will tightly hold it in place. A ball-and-socket joint allows you to rotate your phone for optimal positioning even when it is mounted. Gently pull against the mount to remove your phone. It's that easy.
