

Wireless Charging Phone Mount

Maximum Convenience and Utility!

With silicone expanding arms and support feet, your device will stay securely locked in place on either your dash or windshield. The heavy duty, lockable suction cup makes installing/removing this universal mount secure and simple. Expanding to 3.25 inches, this mount is compatible with all iPhone and Android devices. The ball-and-socket joint rotating head allows you to securely view in both landscape and portrait modes. An integrated wireless charging pad seamlessly charges your device when secured in the mount. Qi-Standard compatibility works with all wireless charging enabled devices.

Functional and Durable!
