

Waterproof Smartphone Pouch

Reliable Protection for Your Smartphone and Wallet!

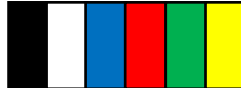

Our watertight pouch is the perfect accessory for you, friends, and family. The pouch is constructed from durable and flexible PVC-reinforced polymer plastic, which adds a layer of cushioning for valuables inside the bag. PVC reinforcement ensures that sharp edges won't penetrate the pouch from the inside or outside. Dual secure lock tabs are intuitive to use, with tactile feedback leaving no doubt whether the pouch is ready for action. An injection molded handle is a perfect latch point for a lanyard or carabiner. Our watertight pouch offers 100% water protection for smartphones up to 5.5" diagonal, or any valuables with equivalent dimensions.

Protects Your Valuables Against Whatever Life Throws Your Way!
