

5-in-1 Wireless TV Headphones

Reliable Sound Quality!

These simple-to-use headphones offer the ultimate in functionality and quality. The unit comes with an included transmitter that sends signal directly to your headphones. You can plug the transmitter into an audio source, and have it wirelessly broadcast sound. The transmitter includes a built-in microphone for use as a remote monitor. From the headphones, you can speak into the built-in mic for clear conversations. Use the built-in tuner to listen to your favorite FM station, or plug into an auxiliary input and enjoy your own music library. These really are the ultimate headphones.
